INTRODUCTION

I am a Full Stack Web Developer with a background in engineering and life-long dedication to learning. I am currently pursuing a certification in Full Stack Web-Development from Monash University with newly developed skills in HTML, CSS, JavaScript.

My love for coding comes from interest in logic and reasoning. I am effective at combining creativity and problem solving to develop user-friendly applications. I am actively looking for a position in software development. I believe that with my skillset I can contribute to any organisation's tech infrastructure.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Applications: GitHub

PROJECTS

Tracking-Journal

<https://annanguyen1.github.io/Track-Journal/homepage.html>

<https://github.com/AnnaNguyen1/Track-Journal>

- Tracking Journal is an application for users to find parks around a certain radius for a given address and keep track of their experiences. This project was done as a group during my learning period.
- My contribution in the project was to design one of the pages in the application and style it, display current weather by fetching Weather API, and some added functionalities to refine the UI.
- HTML/CSS/JavaScript/jQuery/ Web-APIs

Weather-Dashboard

<https://github.com/SrilalithaN/Weather-Dashboard>

<https://srilalithan.github.io/Weather-Dashboard>

- Weather Dashboard is an application to find weather conditions for a given city. It displays current weather and a 5-day weather forecast.

- This Project was executed by me
- HTML/CSS/JavaScript/jQuery/ Web-APIs

Workday-Scheduler

<https://github.com/SrilalithaN/Workday-Scheduler>

<https://srilalithan.github.io/Workday-Scheduler>

- Workday-Scheduler is a day planner application. This application displays standard business hours where a user can make notes of their to-do tasks and save them.
- This project was built by me.
- HTML/CSS/JavaScript/Moment.js

EDUCATION

Certificate of Full Stack Web Development -Monash University. Melbourne, Victoria

Bachelor Of Electronics and Communication Engineering: L.D.R.P – Institute of Technology and Research. Gandhinagar-India.
